

What is Design Thinking Process?

A Key to Business Success...

What is Design Thinking Process? (Stanford School)

A Key to Business Success...

How can we Empathize?

Observe

concrete		emotional
WHAT (what are they doing in the photo?)	HOW (how are they doing it?)	WHY (why are they doing it this way? Take a guess!)
-little girl picking root vegetables	-she's smiling, even though it looks bigger than her, it looks fun	-somehow it's been made into a game...gardening is fun...getting messy is fun to her?
		

Interview

iNSiGHT

Identify customer need and explain why?

A Key to Business Success...

HOW to use “What, How and Why”.

Set-up: Divide a sheet into three sections:
What?, How?, and Why?

- Start with concrete observations (What)
- Move to understanding (How)
- Step out on a limb of interpretation (Why)

concrete ← → emotional		
WHAT (what are they doing in the photo?)	HOW (how are they doing it?)	WHY (why are they doing it this way? Take a guess!)
-little girl picking root vegetables	-she's smiling, even though it looks bigger than her, it looks fun	-somehow it's been made into a game...gardening is fun...getting messy is fun to her?
		

A Key to Business Success...

7 musts for successful interview?

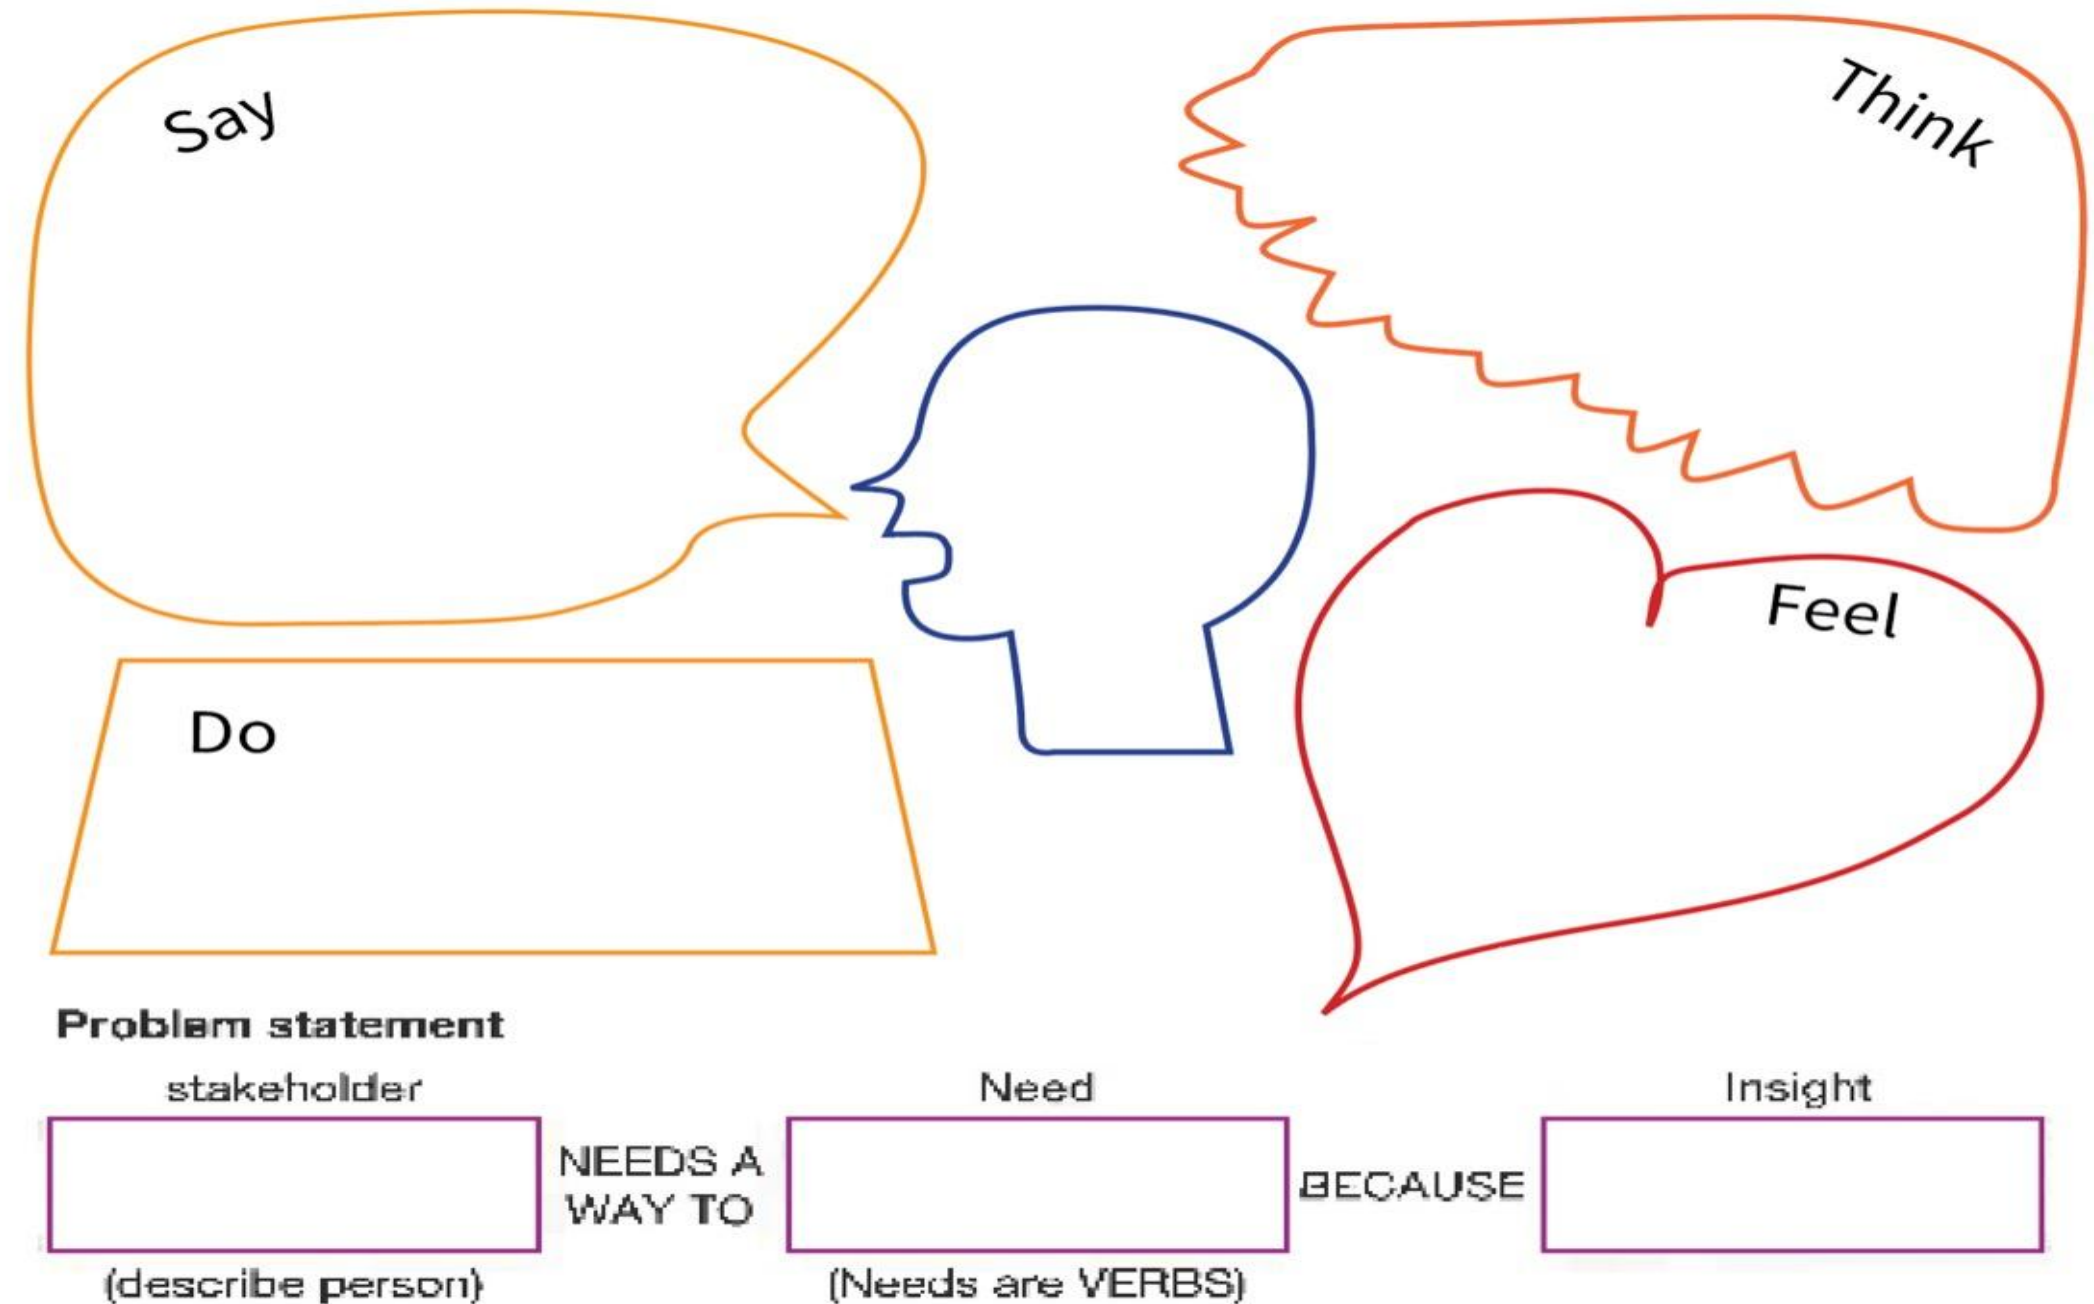

- Clarify your objective
- Select your Respondents
- Listen to other persons story without interruption and ask why for insights
- **Ask for a specific instance ... Tell me**
- Look for inconsistencies
- Pay attention to non-verbal clues
- Don't be afraid of silence

A Key to Business Success...

Why we use Empathy Map?

- Unpack
- Identify needs
- Identify insights
- Find source of frustration
- Discover area of improvement
- Explain different perspectives
- Question our own assumptions

Design Challenge Statement: How might we help customer reach products on higher shelf?
